century ago.

In both cases the cellars were 'elevated' - lifted, if the reader pleases, off the ground, and above the underlying clay.

Practical use of local knowledge was the key in those cases.

The home owners of Wilmington should not be too hopeful of the results of the coming Soil Survey.

On the other hand it will be of value to the Town Engineer, and it may be of value to the Board of Health. It will serve a useful purpose, in being another tool for the officials of Wilmington, in their future planning.

THE TOWN MANAGER'S PRIORITY

Town Manager Sterling Morris spoke yesterday in the Rotary Club in what was really his first public talk in Wilmington.

There was no particular subject, but he did speak of how he allocates his budgeting, and his Capital Improvement planning.

Members of the Wilmington Finance Committee have spoken highly of the 1968 Town Budget, prepared by Mr Morris. They say it is an excellent piece of work.

But his priority in Capital Improvement planning is worth reporting. It goes this way:

1. Power and Water - two essentials of an community life. 2. Protection of Persons and Property. 3. Health, Education and Welfare. 4. Transportation and allied facilities, and 5, Labor and other items.
